Camp CANabUS

“All good things in moderation, including moderation itself”

Round the Clock

Designated Hours

Camp CANabUS, is an international group of ‘burners at heart’ from both CANada, and the US, along with our playa-fied monkey mascot Caaaaarrlll. Beware of Caaaarlll though, he can be a little naughty at times, and we encourage spanking our monkey when he gets out of hand. We’re a fun loving crew that specializes in Pirating and Ninja skills. Most of us have undergone years of extensive training from the great and knowledgeable St John Jameson, more commonly known as the patron saint of whiskeys. You can track us down by following the sound of shenanigans, constant laughter, and of course good music.

Our camp will feature the return of the Blue Bomber, a bad ass 1984 vw Vanagon converted into a mobile rooftop DJ Stand, including nightly performances by the infamous DJ Martin Southall. Ignore the outdated saying, but instead “If this van’s a rockin...come a-knockin”

Some of the other goodies and activities which Camp CANabUS will feature include:

- * Bag o’ Wine Limbo – How low can YOU go? Participants must be over 21 or have a really good fake id. Be sure to bring a friend or 2 to be a ‘spotter’ for you, and of course to take pictures of the hijinks. A kid friendly version of this activity can also be rigged up with a less potent bag o fruit punch limbo. We’ll try to do this before sundown every night (better for picture taking), but it can be setup in an instant any time day or night.
- * Frozen Popsicles, Pudding, and Jello shots - throughout the weekend. Great way to beat the heat.
- * Ray’s Music eXchange – Got some old music that’s you’ve been burnt out on for years? Or just something that is so good you have to share with others? Or maybe you just want to ride home from LOF w/ some new tunes to massage your ears. Bring your old used cd’s and we will exchange them for something new of your (our our) choosing. We don’t need to keep your old cd’s if you want them back, but we would like to add them to the ever growing library.
- * Fire Pit for roasting marshmallows, making smores, but mostly because we all love to play with a good FIRE!!

Have fun and always remember, Safety THIRD

That year we headed from Detroit to the Black Rock desert outside Reno, NV at the Burning Man festival to build three 20' Dutch style Windmills. Amid dust storms and 70 mile per hour winds we took three moving embodiments of peoples fears and nightmares and burnt them down in a mad rush of knights with flaming lances.
